

Quality of Life

When your parent or loved one needs daily personalized care and attention, Country Gardens Duluth is here for you. We proudly and happily provide individualized assistance when it is needed. But what inspires us the most is providing care that comes from the heart, in a setting that's anything but clinical.

We think of your family as our own, so it's no surprise that a feeling of home flows throughout the community. Natural light warms every room. The irresistible aroma of a made-from-scratch pie drifts from the main kitchen. Soft music envelopes the central living room to bring a little joy to everyone around.

Conveniently located near several major arteries, we are also central to many medical offices and Gwinnett Medical Center, shopping, restaurants, the library, parks, and Duluth's historic downtown district. Truly nestled in the middle of all that the area has to offer!
